bases of disturbance were frequently occuring between the rypts of these villages + the Regimental grass-cutters. From time immemorial the rypts of these villages, in common with the rypts of any other village, rightly + naturally looked upon the grass of their fields as their own private property, available for homeuse or to find a ready sale in the Petta + in the Contt. On the other hand,

was the practice of grass-cutters, public + private, to obtain grass from the open fields situated in their places. They had, in general, to pretend to a right to take the grass from such lands; they had to go in gangs + establish, wherever possible, a sort of terrorism over the ryots. As unoccupied lands mostly stood in close proximity with the cultivated lands + good Hurrialee grass found chiefly on the borders of + within the cultivated areas and also where it was a sale-able Commodity, that is to say, in the places in which no grass-cutters could touch them, disputes + assaults between grass-cutters + the ryots were of constant occurrence. Besides, the Hulbanni was sold annually and as such

S- became in a way the f m property of the ryots. Under these Circumstances, some arrangements ought to have been made for the Supply of grass to the troop-horses. Several remedies were proposed: —

(1) That the Military Authorities might be asked to Support the issue of instructions to the Regimental grass-cutters that they must make their own arrangements with the ryots of different villages, in default of which the Civil Authorities would treat them as trespassers each time they are Caught within the fields of the ryots.

(2) That tenders might be invited for the Supply of grass to the troops

(3) That waste lands might be set aside for grass-cutters.

the offg: Chief Comr: Considered 6
however, that some difficulty involved
in the adoption of these proposals
and directed in 1876 that the
immediate requirements of the
Military Department might
be met by placing in abeyance
the rules under which unoccupied
lands were sold annually for
grazing and that the offg: Comr: Bangalore,
might suspend the Sales of grazing
lands in the aforesaid three
Hobli's so that the grass growing
thereon might be freely removed
both by the grass-cutters & the ryots alike.
In para 3 of this order, it has
been observed that the offg: Ch: Comr:
never intended this measure to
remain a permanent one but

hoped that the wants of the troops would soon be met by means of Contracts for the Supply of grass and suggested that steps be taken in that direction by the military authorities.

In the year preceding the Stoppage of Sale, the Sale-proceeds of Hubbanni in the villages embraced by the said 3 Hobblis amounted to Rs 1070/- and the area of the said lands was 3, 854 A - 31 G.

From the subsequent records, it is found that the privileges thus accorded to the grass-cutters were very much abused by them. They began to remove & scrape grass from the wet lands of other villages also. The hardship & loss done to the ryots of

the neighbouring Hobli who purchased
the Hulbanni thereof became daily
increasing. It is on record that
on one occasion a gang of grass-
cutters, as many as 200 in number,
trespassed into the wet lands of
the Singasandra Village, Bangalore Tk,
and removed about 25 Cart-loads (=100 Rs:)
of green grass specially raised at a
time of Scarcity. But when a
Complaint was lodged against
the grass-cutters it was ascertained
by Mr: Raghavachar, (then an
Asst: Com: specially deputed by for
the purpose) that the Complainants
had been appeased in other
ways also & that money-Compensation
for was not a Sufficient recompense to
the loss Sustained by them on account of the trespass.

were

But the trespassers ~~had the~~ not punished ~~good fortune to be let off by~~ the Residency on the ground that a long period intervened between the date of alleged removal & the date of inspection by Mr. Raghavachariar & that there was no means of determining whether the alleged loss was done entirely by the grasscutters or by grass-cutters & villagers since. the grass-cutters were however cautioned to confine themselves to the limits within which they might get grass & the Dy: Coll:, Bangalore, was called upon to submit a list of such limits. It was not possible to define the boundaries of unoccupied lands in each Village as they were scattered

here + there, and as they were (10)
subject to constant changes
by the grant of fresh lands for
cultivation on the one hand +
by relinquishment of lands on
the other. The only sure way
of identifying the lands on wh
grass might be cut without
invading the private rights of
the ryots consisted in asking the
Patel of each village to show
such lands. Consequently a
list of the villages in which the
Hulbanni had been set aside
together with the names of the patels thereof

nothing else seems to have taken place in respect to these Kavals till December 1900, when the Suptt. of Rev: Survey during his tour of inspection in the Bangalore Dt: raised the objection that three 3 Hoblis were free from the Sale of grazing. Consequently in their office no: C72-81 & 19.8.01, R.732-97 the Dy: Comr:, Bangalore, was asked to report on the point. In submitting an explanation to this, the Dy: Comr: in his no: 7399 & 27.12.01, solicited the instructions of Govt: whether the military authorities might not be asked

Memorandum

1. With reference to the Deputy Commissioner's order No. 1315 of the 16th instant forwarding a file of correspondence ending in docket No. 8799/253 dated 14th idem regarding the removal of grass by the grass cutters of the 3rd Madras Light Cavalry from the lands of the Singasandram village Bangalore Taluk, I went to Singasandram village on the 18th, the Amildar having been unable to attend on the previous day.

2. I examined the field where grass was alleged to have been cut. They were pointed out by Patel Ranjandaiah, Muniya, Narsimha and some other ryots. There are distinct signs of one crop of grass having been removed about a month or more ago. It has grown again to about 1/3 of the height of the grass now standing upon the ridges of fields & under Casuarina trees adjoining the fields pointed out. In some fields I also saw distinct signs of grass having been scraped.

3. On looking at the village map and examining the Pahani I find that the field pointed out bear Survey numbers 8, 9 & 10, and that the whole of them is occupied land. The grass on the whole of the first two numbers was cut, also on a part of No. 10. These fields belong to Kondappa, Shamboy Gundappa and

Muniya

Munigas respectively i.e. they are the registered Pattadars. Their total area is nearly 5 acres & the greater portion is assessed at wet rates. The total assessment is 15 Rupees, 8 annas.

4. Judging from the appearance of similar lands in other villages I have no doubt that during this year which has been such a very anxious one for ryots' cattle, the grass on these fields was most carefully conserved. I also ascertained that all the ryots had agreed to share the grass that was grown bearing their proportionate shares of costs.

5. From the statements appended it will be found that the crop of grass which must have been removed may be estimated at 25 full cart-loads. Every evening in the Pettai cart-loads of green grass are being sold for from 4 rupees to 6 rupees. I have been myself buying like this. On the whole the grass which must have been taken away may be valued at 80 to 100 Rupees. But the loss cannot well be measured in money. The hardship is far greater than being deprived of 100 rupees in cash.

6. If it can be established that the grass on the whole of the lands

pointed

pounded out to me on the 18th instant, was actually taken away by the 3rd Madras Light Cavalry grass cutters, the payment of a compensation of 100 rupees to the ryots will not be unreasonable.

7. To decide whether this allegation of the removal of the grass from these lands is true and also not exaggerated is a different matter. The first difficulty arises out of the long delay which has taken place between the date of removal of the grass and my inspection of the land, a period of 49 days from 1st October to 18th November. I have also been able to hear only one side. The only independent enquiry I was able to make was the following—

(a) When I was inspecting the spot about 60 grass cutters in 4 or 5 batches were scraping grass all round the village. I ascertained that several of the fields were occupied i.e. a fee per mat was being paid for them. I intercepted some of the grass cutters when they came upon the road with their pony loads of grass. On questioning them I found that they belong to the Lancers, that some

9

of them had actually seen the Light Cavalry grass cutters busy on the very fields pointed out by the ryots. The names of two of them are Veerah & Lukkanna. When I questioned them closely they grew unwilling to answer but they felt no doubt about the place where the grass was being cut.

(b) The bank of the tank upon which Private No. 39 Syed Meer has stated that he cut the grass is very low and very narrow. On the water side there is the stone revetment, and on the other side there are so many trees that this Private's statement is quite incredible.

(c). Kodagidar Krishnappa, Kuddu Narsappah, Kuddu Muniga and Madival Hasansab all respectable residents of other villages were actually present when grass was being cut by private grass cutters supervised by three Sepoys on the very plain pointed out by the ryots. They say that all the three fields were filled with grass cutters and that their number must have been over two hundred. I am unable to disbelieve the statements (which are appended) made by so many respectable men.

(d)

(2)

(d) The ryots themselves say that the number of Sepoys in uniform present is not one but three. Some of them also offer to identify the other two Privates if they are taken before the Light Cavalry men on parade. One of them was a Mahratta and the two others Mahomedans.

8. I estimate the compensation payable to ryots at from 80 to 100 Rupees. The repetition of such loss to the ryots in future is best prevented by moving the Military Department to warn the Privates and by the prosecution of the grass cutters themselves for simple theft in the usual course when such Complaints are made.

9. In answer to para 2 of Letter No. 3445/352-91 d/ 12th November from the Assistant to the Resident, I submit that the grass does not appear to have been cut from uncultivated waste land but from wet lands upon which grass was specially grown. Even the grass on uncultivated waste land is sold to the ryots under the Survey Rules. In Alur, Agara, and Yesvantpur Hoblis of the Bangalore Taluk the grass is not being so sold for the express convenience of grass being taken therefrom for the Military.

Dated Bangalore, 7th January 1892.

SIR,

With reference to your letter No. 9567/372 dated the 17th December 1891, I am directed to say that, owing to the long period that elapsed between the alleged removal of grass by the grasscutters of the 3rd Lancers and the inspection of the site whence the grass was taken, the Brigadier General Commanding feels he cannot call on the 3rd Lancers to pay for the grass, as there is no means of knowing whether the damage and loss has caused entirely by the 3rd Lancers grasscutters or by gr- cutters or Villagers since. I

Resd

Resident considers it desirable that complaints of this kind should in future be sent in as soon as possible with a full report, and hopes that the Durbar will be able to make the necessary arrangements.

2. The remarks contained in para 1 of the 1st Assistant Resident's letter are commanded to the Deputy Commissioner's attention. The grass was cut on 1st October, but the aggrieved do not seem to have complained to the local authorities at all, nor to the Resident till 6th Oct. The reason for this delay in complaint is not apparent. The 1st reference to the Durbar on the subject was received from the 1st Assistant Resident on the 12th November, and the local inspection of Nagarathna held on the 18th Nov. will be pointed out in the [illegible]

Memo

It is not possible to define the boundaries of unoccupied lands in each village, as they are scattered here and there and subject to change every year.

2. A Survey map (marking on it the boundaries of marginally named three Hobles) is herewith submitted. It has to be stated that the grazing rights on the unoccupied lands of these Hobles are not annually sold by auction to the ryots, having regard to the requirements of the military departments.

1. Agara
2. Yesvantpur
3. Alsur.

A nominal Roll of the Patels, or headmen of the villages included in the three Hobles, and a Statement of villages with more than ten acres of unoccupied land are also submitted.

The Military authorities may be informed that the unoccupied lands

each village, do not remain the same every year, but vary, as the fresh lands are taken up for cultivation, or old lands relinquished. All unoccupied lands are not to be had in an undivided block, nor is the absence of fences or other protection from cattle, any sign of land being unoccupied. The only sure way of identifying land on which grass may be cut or scraped, without invading private rights, is, to ask the village headman to show such lands. A circular order has been issued to village servants to point out unoccupied land, whenever required, by the military grass cutters.

Sir,

With reference to your

last I am to Express a
regret that paragraph
2 of your letter no 38/35-2 of
the 7th January 1892 still
remains unanswered
as some papers on the
subject and chiefly
Mr: Raghavacharlu's --
Memorandum ~~of~~

therein cited are missing
I am to add that so
far

far back as March 1876 the Sales of grazing lands in the Alsur, Agara ~~Agra~~ and Yesvanthapur Hobblies of the Bangalore Taluk were suspended so that the grass on these lands could be available to the grass cutters from the Cantonment of Bangalore as well as to the villagers. This order is still in force.

Sir,

Reverting to correspondence ending with letter No. 11283 dated 2nd. January 1894, from the Chief Secy. to the ~~Govt.~~ of Mysore to your address regarding lands on which grass is cut for the use of the Military Deptt, in the vicinity of Bangalore, I am directed to state that the Supdt. of Revenue Survey in Mysore has on personal inspection found that ~~the boundary marks in the 3 Hoblis of Alsur, Agara and Yeswantpur, wherein the sales of grazing lands are held in abeyance suffer as a consequence.~~ In this connection I am to invite your attention to the concluding para of the Chief Commissioner's Progs. No. 10375/Genl. 326 dated 31st. March 1876, which explains that the arrangement effected was of a temporary nature. The Dy. Commr. of Bangalore solicits orders as to whether the Military authorities may not be asked to make their own arrangements and the grass lands set free for sale to villagers. I therefore request that the Hon'ble the Resident be moved to advise the Military authorities to make their own arrangements for the supply of
